

LETHRELL DOUGLAS

Data Analytics & AI Specialist

Etobicoke, ON (Greater Toronto Area) | Lethrell@outlook.com | (437) 213-2899 | github.com/lethrelldouglas | lethrelldouglas.github.io

PROFESSIONAL SUMMARY

Data Analytics & AI Specialist pairing five years of operations and property-management experience with hands-on data analysis and automation. Uses SQL, Python, pandas, Advanced Excel, and Tableau to clean, analyze, and visualize data for data-informed decisions. Currently completing a Data Analysis & AI Specialist diploma, including a 200-hour internship, while running an AI studio serving real clients.

TECHNICAL SKILLS

Data & Analytics: SQL, Python, pandas, Advanced Excel, pivot tables, dashboards, Tableau, Data Visualization, Statistical Analysis, Predictive Analytics, Machine Learning, Computer Vision

AI & Automation: AI agent development & deployment, LLM integration, prompt engineering, workflow automation

Tools & Web: JavaScript, TypeScript, React, Next.js, Tailwind CSS, HTML, CSS, REST APIs, Git

Business & Reporting: KPI tracking & reporting, pricing & revenue optimization, Excel budgeting, stakeholder collaboration

PROFESSIONAL EXPERIENCE

Founder & AI/Automation Developer — ResolvOps

Jan 2026 - Present

Toronto, ON

- Founded an AI-driven studio delivering custom websites, managed IT, and AI automation for small businesses.
- Retained as the full IT manager for Powell Tree Services, a 20+ year tree-service operation: set up and maintain their network, devices, and automated business workflows, cutting manual administrative time.
- Designed and built the company website for Powell Tree Services (powelltreeremoval.ca) — custom-coded, mobile-first, and SEO-structured to rank locally and convert visitors into quote requests.
- Built and deployed Python AI agents and data pipelines that automate lead generation, content, finance, and operations workflows (Next.js, React, TypeScript, Tailwind CSS, Python).

Property Manager & Marketing Lead — Kirstein Properties

2016 - 2021

Greater Toronto Area, ON

- Managed cleaning, turnovers, and booking inquiries for 20+ apartment and vacation-rental units.
- Set seasonal, demand-aligned pricing based on booking demand to optimize revenue; maintained booking calendars and reservations.
- Led marketing campaigns and produced photography and copy for thousands of rental listings.
- Managed website, online bookings, and point-of-sale payments; built renovation and cleaning-supply budgets in Microsoft Excel.

PROJECTS

- Personal Portfolio Website** (lethrelldouglas.github.io) — Designed, built, and deployed a custom, multi-page developer portfolio featuring an interactive 3D hero, scroll-driven animations, and a fully responsive layout. Built with Vite, React, React Three Fiber (Three.js), Tailwind CSS, and framer-motion; hosted on GitHub Pages.
- StockBot** (Python) — AI paper-trading bot pairing a Claude analyst with a hard risk engine and the Alpaca brokerage API.
- Lead-Intelligence Pipeline** (Python) — Automated data pipeline that collects, cleans, and scores prospect data for client outreach.

- **Jarvis** (Python) — Personal AI voice assistant with Gmail and knowledge-base integration.

EDUCATION

Diploma, Data Analysis & AI Specialist — triOS College

Expected Oct 2027

Etobicoke, ON

Relevant coursework: AI Capstone, Data Analysis with SQL & Python, Machine Learning, Predictive Analytics, Statistics for Data Analytics, Data Visualization, Computer Vision. Includes a 200-hour in-person internship.

WRITING

- **"Unethical Use of AI Recognition"** — essay examining the ethics of facial-recognition and AI data collection (lethrelldouglas.github.io).
- **"Is Anonymity Real?"** — essay on data anonymization, re-identification, and privacy.
